

Before you sign up for Medicare Advantage, ask yourself:

Do I have access to a provider close to home?

Only half of United States physicians accept Medicare Advantage plans making treatment options limited, especially for individuals in rural communities.

Can my health conditions wait for approval?

Nearly all Medicare Advantage have a prior authorization process to see specialists or for specific treatments.

Can I financially afford denied treatment?

Medicare Advantage members may end up spending more than those on Original Medicare due to hidden costs and denied coverages.

**A Medicare
Advantage plan
may NOT be for
you.**
